Work Experience

FULL STACK DEVELOPER | LBC IT SOLUTIONS | APR 2021 - PRESENT

(React, .NET, TypeScript, Bootstrap, CSS, HTML, SQL, Git, SQL Server, Azure, PHP, Laravel, Ruby)

Developing enterprise web applications for clients such as TELUS and TIFF

- Develop reusable web components using Typescript & Bootstrap for enterprise React/.Net/Laravel applications
- Translate approved UI/UX design mockups into feature-rich websites and web applications
- Debug and create solutions for problems within existing codebase
- Create and consume REST APIs using .NET and Laravel
- Design repository functions to efficiently query database tables
- Update legacy websites using HTML, CSS, Typescript, PHP, and Ruby
- Interact with business partners gathering needs and feedback for components

FREELANCE DEVELOPER | AUG 2018 - PRESENT

(React, Next.js, Typescript, Javascript, HTML, CSS, Figma, AWS, CMS)

Design and develop websites for local clients implementing accessible, human-centred designs

- Full Stack development using mainly React
- Extensive knowledge in website hosting, domains, and website builders (WordPress, WooCommerce, Webflow)
- Fantastic eye for user-friendliness regarding UI/UX for websites

FULL STACK DEVELOPER CO-OP | AXCYS | JAN 2021 - APR 2021

(React, Redux, CSS, HTML, .NET, MySQL, Axios, Git, Microsoft Azure, Visual Paradigm)

Developed a web application for the build-to-order furniture supply chain industry

- Design, develop, and test HTML, CSS, JavaScript and React.JS code that meets accessibility and browser standards for websites.
- Modelled and created MySQL database for storage of key application data.
- Create and utilise REST APIs for interactions with the database and backend server processes.
- Actively participate in project meetings, working closely with project stakeholders, designers and other developers to discover project requirements, goals, and required functionalities.

WEB DESIGNER & DEVELOPER | CRUE TV | MAY 2020 - DEC 2020

(Figma, AWS EC2, AppStream 2.0, Adobe Creative Suite, CMS)

Designed and implemented an online education platform for youths in the GTA, with the Red Cross.

- Created a low-latency Adobe Creative Cloud application streaming service using AWS AppStream 2.0 which provided on-demand instances directly to students browsers.
- Deployed websites with AWS EC2 servers running Linux and utilising Route 53 for DNS management.
- Designed websites for the project using Figma for the wireframes, implementing them using a CMS (WordPress)

Volunteering

CODING MENTOR | CANADA LEARNING CODE | APR 2021 - PRESENT

(JavaScript, Python, SQL)

Help groups of 4-6 students with troubleshooting errors and problem solving related to workshop focus

- Prepare for sessions by reading provided materials before hand, experimenting with the technology and language for the session
- Assist students with common debugging errors, training them to find solutions themselves
- Ensure a safe, fun, and respectful learning environment for all participants of the workshop

Education

ADVANCED COLLEGE DIPLOMA | GEORGE BROWN COLLEGE | 2018 - 2021

Program: Computer Programmer Analyst

Dean's list: Fall 2020 (3.92 GPA)

Technical Skills

Languages - Typescript, C#, Javascript, Python, HTML, CSS, PHP, Java, Ruby

Libraries + Frameworks - React, React-Native, Bootstrap, Spring Boot, Redux, Node, JQuery, Angular, .NET

Database + Tools - SQL, NoSQL, SQL Server

CI/VCS/Testing - Jenkins, Travis CI, Git, MochaJS, Enzyme, JEST
